Simplifying DSME/T

"I wish to most highly recommend DiaMed by Chiron Data Systems, Inc. We have been using the software program as our sole electronic record keeping tool since August 2007. It is fantastic! Tech and customer support is always prompt and seemingly unlimited. I have had several features customized to meet our specific business needs. Thank you for the opportunity to work with such an outstanding product and service."

-RN, CDE

"We have been using DiaMed for over 3 years in multiple sites and are very happy with the ease of data entry and retrieval. Last year we submitted our ADA Recognition application and it took less than a minute to run the ADA Application Report in DiaMed! It made applying for ADA Recognition much more pleasant than in prior years. I highly recommend DiaMed."

-PharmD, BCPS, CDE

"DiaMed fits our practice well, giving us the tools we need to support our ADA certification and facility's reporting needs. The DiaMed team has been extremely helpful and responsive to our specific needs. Overall, an excellent data management system!"

-RD, CDE

- ✔ Individual and group class documentation
- ✔ Multi-user scheduling system
- ✔ Automated patient and provider letters
- ✔ Business and HR management and reporting
- ✔ Customizable to meet your unique patient and program needs
- ✔ and much more...

DiaMed™

www.chirondata.com

DiaMed is the complete software solution developed exclusively by diabetes educators for diabetes educators. DiaMed helps you optimize your patient care, coordinate your multidisciplinary team, and effectively analyze your patient and program data.

What sets DiaMed apart?

Based on the diabetes management experience of our staff, the feedback from our national beta testing, and the multitude of ideas and insights we receive from our clients, we are able to deliver a complete and useful diabetes education software solution to diabetes educators like you!

- ✔ User-friendly, intuitive interface
- ✔ Comprehensive customer and technical support
- ✔ Streamlined documentation and reporting capabilities
- ✔ Routine updates based on feedback from users
- ✔ Support staffs' first-hand knowledge of DSME/T programs' documentation and reporting requirements

Technology at work for you

In a recent survey of diabetes education coordinators who use DiaMed in their DSME/T programs:

100% said they were satisfied or completely satisfied with how DiaMed met their charting needs.

100% said they had recommended DiaMed to a colleague in the past.

100% said they were likely or very likely to recommend DiaMed to a colleague in the future.
